

A full-page background image featuring a male runner in mid-stride on a paved road. The scene is captured at sunrise or sunset, with a bright sun low on the horizon, creating a warm, golden glow and long shadows. The runner is wearing a dark long-sleeved shirt and shorts. The road is flanked by tall grasses, and the sky is a mix of blue and orange. The overall mood is one of energy and achievement.

# ***GREEN EARTH GREEN US***

As a professional manufacturer in the textile industry, we adhere to our professions and our social responsibility for the sustainable future, caring for our EARTH as everyone. We put a lot of effort into developing ECO friendly fabric products with competitive prices. Our company adopts green energy manufacturing techniques (both weaving and dyeing) thoroughly into our production line.

# ECO-FRIENDLY

---

## 100% Recycled Yarn

We provide eco-friendly yarn including NYLON and POLY material extracts from old fishing nets, oyster shells, PET bottles, etc. Our company persists in providing ECO fabric into the textile industry sufficiently and efficiently. Our mission is to keep the sustainable mindset as regard and adherence for maintaining sustainability for our Earth

## 100% Polypropylene

100% Polypropylene is constituted by carbon and hydrogen. As water and energy are reduced into minimum through the solution-dyed process, polypropylene will also be dissolved naturally within 3 to 5 years

TIARA

## Solution Dyed

Solution Dyed fabric is by adding a master batch colorant to the polymer melt in spinning. Not only does it reduce the industrial waste water from the process, it also maintains highly colorfastness performance.

## biodegradable

Our company combines value development, innovation, and eco friendly as our main capability. Our distinguishing features for our patent pending product is to bring the recycled yarn up to the next level, which synergized and provide the following feature:

- 100% BIO-DEGRADATION
- MOST EFFECTIVE AND SIMPLE CONSUMPTION
- NON-TOXIC PRODUCTS
- ISO 17025 ACCREDITED

# PRODUCTION

---

We can give you all season request for various outdoor activities. Our thermal collection whatever natural fiber, fleece lined or 2~3 layer all can keep wearer warm & cozy but not stuffy in addition, functionality is indispensable for this collection. Comfortable stretch with high abrasion for hiking & camping. Breathable comfort with nice water repellency for running & riding. High waterproof, windproof & air permeable for climbing & skiing
