

Sapphire

A TRADITION OF QUALITY

# Sapphire

The **Sapphire group** is a leader among the largest textile producers in Pakistan. Being a highly diversified group it is at the forefront in different business avenues. We believe in expanding our horizons. Having established our name in the textile sector, we continued to apply standards of excellence in different domains including: dairy, power generation and retail.

Today our dynamic corporate group is serving customers across all business segments with high quality products/services, forming strategic synergies that give us a competitive edge.

We have actively pursued a distinctive path and are proud to have made our mark with our 'brand power' that has come to be synonymous with quality. It has helped us in gaining an enviable reputation in the process and established long lasting relationships with our customers. Our customers remain the heart of everything we do.

**Sapphire's** journey is one of continued excellence and we look forward to a more promising future ahead.

Since 1970

With nearly half a century of being operational Sapphire Group has maintained its growth momentum and has set unparalleled standards in different sectors.

One of the largest vertically integrated textile groups of Pakistan

Products being marketed and used around the globe.

Diversification has been the key to success

Operating in a socially and environmentally friendly manner

# State of the art, Vertical Intergration System

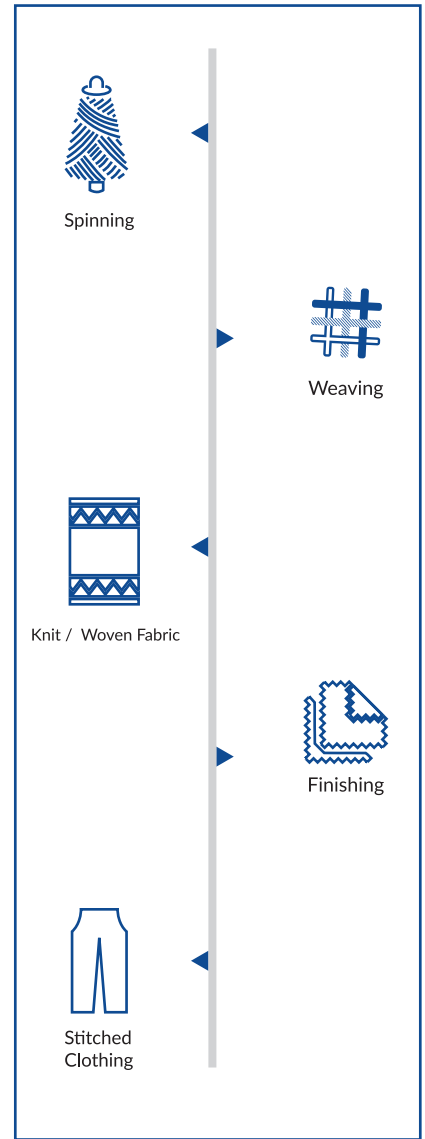

With our vertical integration system we have more power and control over our products. It helps us in maintaining large in-stock supply of fabric, ensure streamlined delivery and keep quality control. From fiber to the mill, from garment makers to our esteemed customers, Sapphire makes sure that everything is handled efficiently and the end result is of highest quality.

---

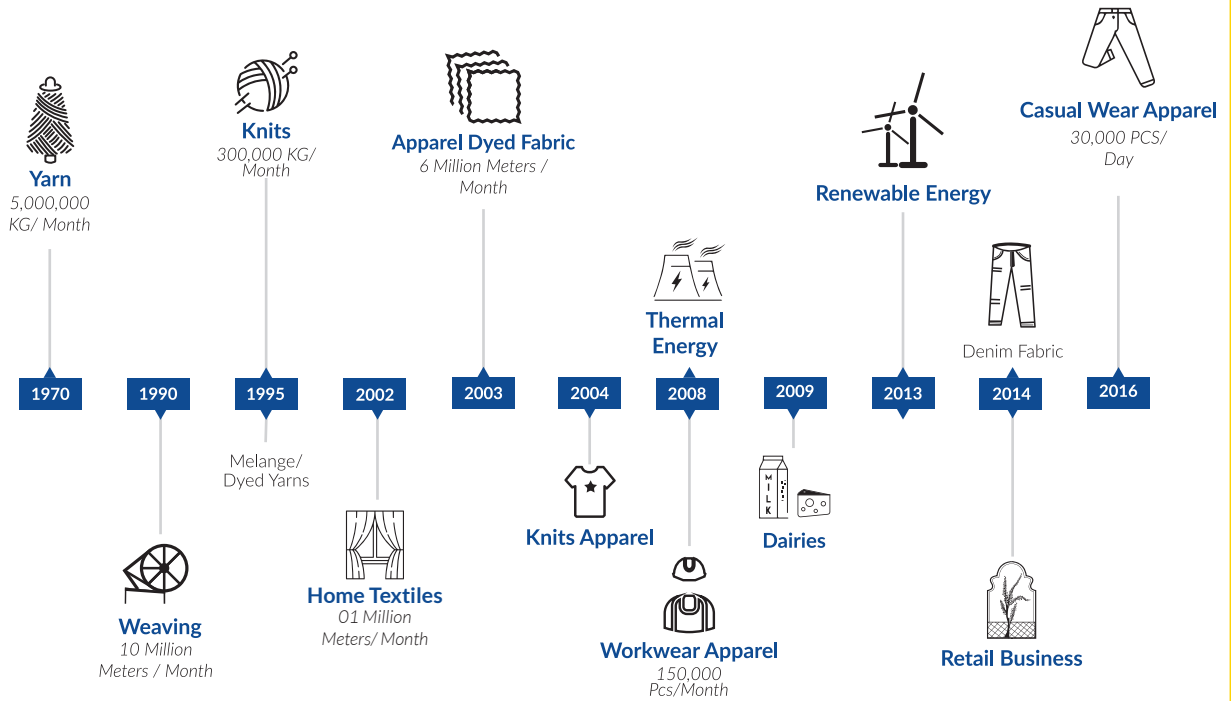

Over a period of five decades, we've become known for products and service quality and our partnership with customers.

---

The latest technology with world-class expertise for reliable volume and innovation sets us apart

# Journey Through Times

# Sapphire Finishing Mills LTD.

Sapphire Finishing Mills started its operation in 2003. At Sapphire, we rely on the best science and latest technology to deliver 'large volume' efficiently, break through 'innovation', and 'consistent quality' at every step. Today, we are able to produce 6 million meters of processed fabric in various weaves.

## Mission

To grow flexible textile manufacturing capabilities to lead the industry in meeting the evolving global demands.

## Ethics

We value conducting business ethically and contributing towards the advancement of our partners and development of our community.

## We focus on achieving:

- A complete range of fabric excellence in all substrates.
- Streamlined execution with quality and cost control. built in.
- Value in volume production and fashion innovation.
- Partnerships with brands and garment-makers.

# Casual Wear Apparel

Fashion requires options and there's no end to the choices that Sapphire gives you for casual wear fabrics. The success of a company's casual wear lines might be a product of its brilliant advertising and branding of the amazing design talent, but the bottom line is **'consistent quality'** and value in the fabric along with **reliable collaboration** between you, your garment makers and fabric suppliers.

That's what Sapphire delivers.

Sapphire proudly develops **Seasonal Collections** of casual wear fashion options well in advance and also has 800 sought-after fabrics in stock or ready for production. Sapphire is your home for stretch fabrics because of our extensive experience and specialized machinery for optimum stretch results.

**Sapphire stretch fabrics are our strength, and yours.** Our hardware, specialized finishing treatments and intimate fibre blending options add performance features to the fabric to meet the ever growing need of our consumers.

Sapphire is not stopping here, you have the option to get these wonderful fabrics converted into your styles at Sapphire Apparel into **beautiful garments**. Make the most of our state of the art brand new garment stitching and finishing facility, dedicated for casual wear clients. This state of the art facility will be producing 30,000 pieces per day.
