SINGTEX®

APPARELS ENJOY LOW IMPORT TARIFFS IN THE UNITED STATES

STORMFLEECE™ PRO Using Standard AATCC 35-Water Resistance: Rain Test.

CUSTOMIZABLE PATTERN

Different geometrical shapes tailored to your needs.

S.Café® PATENTED TECHNOLOGY PLUS

WATER RESISTANT
Water repellency /DWR/
Passes rain test standard.

WIND RESISTANT
Wide array of wind resistant ratings test.

DURABLE
Washing machine friendly
/No risk of delamination.

ABRASION
Fit for outdoor sports.

MODERATE STRETCH
Designed for mobility.

BREATHABLE
Dissipates excess heat.

LESS MICROFIBER LOSS
Densely woven minimizes the chance of losing fibers during laundry.

SOFT LIKE KNITTED
Looks like woven, feels like knit.

LESS CARBON FOOTPRINT
Less energy consumption in production
/No lamination and bonding process.

STORMFLEECE™'s unique patented single layer woven technology unites softshell and fleece into one, achieving the right balance between breathability, wind resistance and/or water resistance. Its densely woven surface blocks wind and/or water without the need for lamination making it durable to washes. With its single layer construction, the fabric is lighter and less bulkier compared to 2 or 3 layer fabrics.

Huggably soft

"buyers are going for technical fabrics that are cosy, like plush toys for children..."
