

The background is a corkboard with several colorful fabric strips and buttons. The strips feature various patterns, including geometric shapes and floral motifs in colors like blue, red, yellow, and green. Buttons in various colors (red, grey, white) are scattered around. The overall scene suggests a craft or design project.

# ABOUT US

K and K was established since 1993 in Hong Kong, with over 30 years experience of making different kinds garment accessories products.

Our headoffice is in Hong Kong, and branch in Taipei (Taiwan) and Dongnai (Vietnam). Whereas factories are in Dongguan (China), Yulin (China) and Dongnai (Vietnam).

The total land area are over 60,000m2 with up to 800 technical staffs and dyeing experts.

In our factories we do all preparation, sampling development, dyeing, wovening, printing, painting, processing, quality control and packaging procedure by ourselves.

K and K represents to good quality, in our products more than 95% procedure are made by ourselves.  
We are strongly in making all kinds of wovening and injection products, such as:

cord

## Vietnam factory

The Vietnam factory is under the inner construction now and should be ready to be in operation at Jun, 2023.

There are Including the wovening and plastic injection department at the 1<sup>st</sup> stage, and also the sales and local technical services.

K and K is working hard on the sustainable production and the ZDHC 2035 Goals. We create our own label “The K.GREEN”, to provide the designs with using different kinds of material by recycling our production scrape, decreasing the production waste and carbon release.

We also cooperate with different sustainable raw material suppliers to provide more options to customers, like CiCLO® biodegradable yarn, REPREVE® ocean PET waste recycled yarn and recycled nylon yarn, LYCRA® recycled T400 yarn.

And we are looking forward to work with other new material and walk ahead the global fashion trend.
