Confer

- 100% Private Owned
- Dye House & finishing
- Monthly Capacity: 600K yards

KUN

- 100% Private Owned
- Jacquard mill
- New woven development
- Monthly Capacity: 300K yards

Greige

- Partnership
- Water & Air jets
- Monthly Capacity: 1M yards

Print

- Partnership
- Rotary & flatbed print
- Monthly Capacity : 2.5M yards

Lianyungang Technical Textile

- 100% Private Owned
- Dobby air & rapier mill
- Monthly Capacity: 1M yards

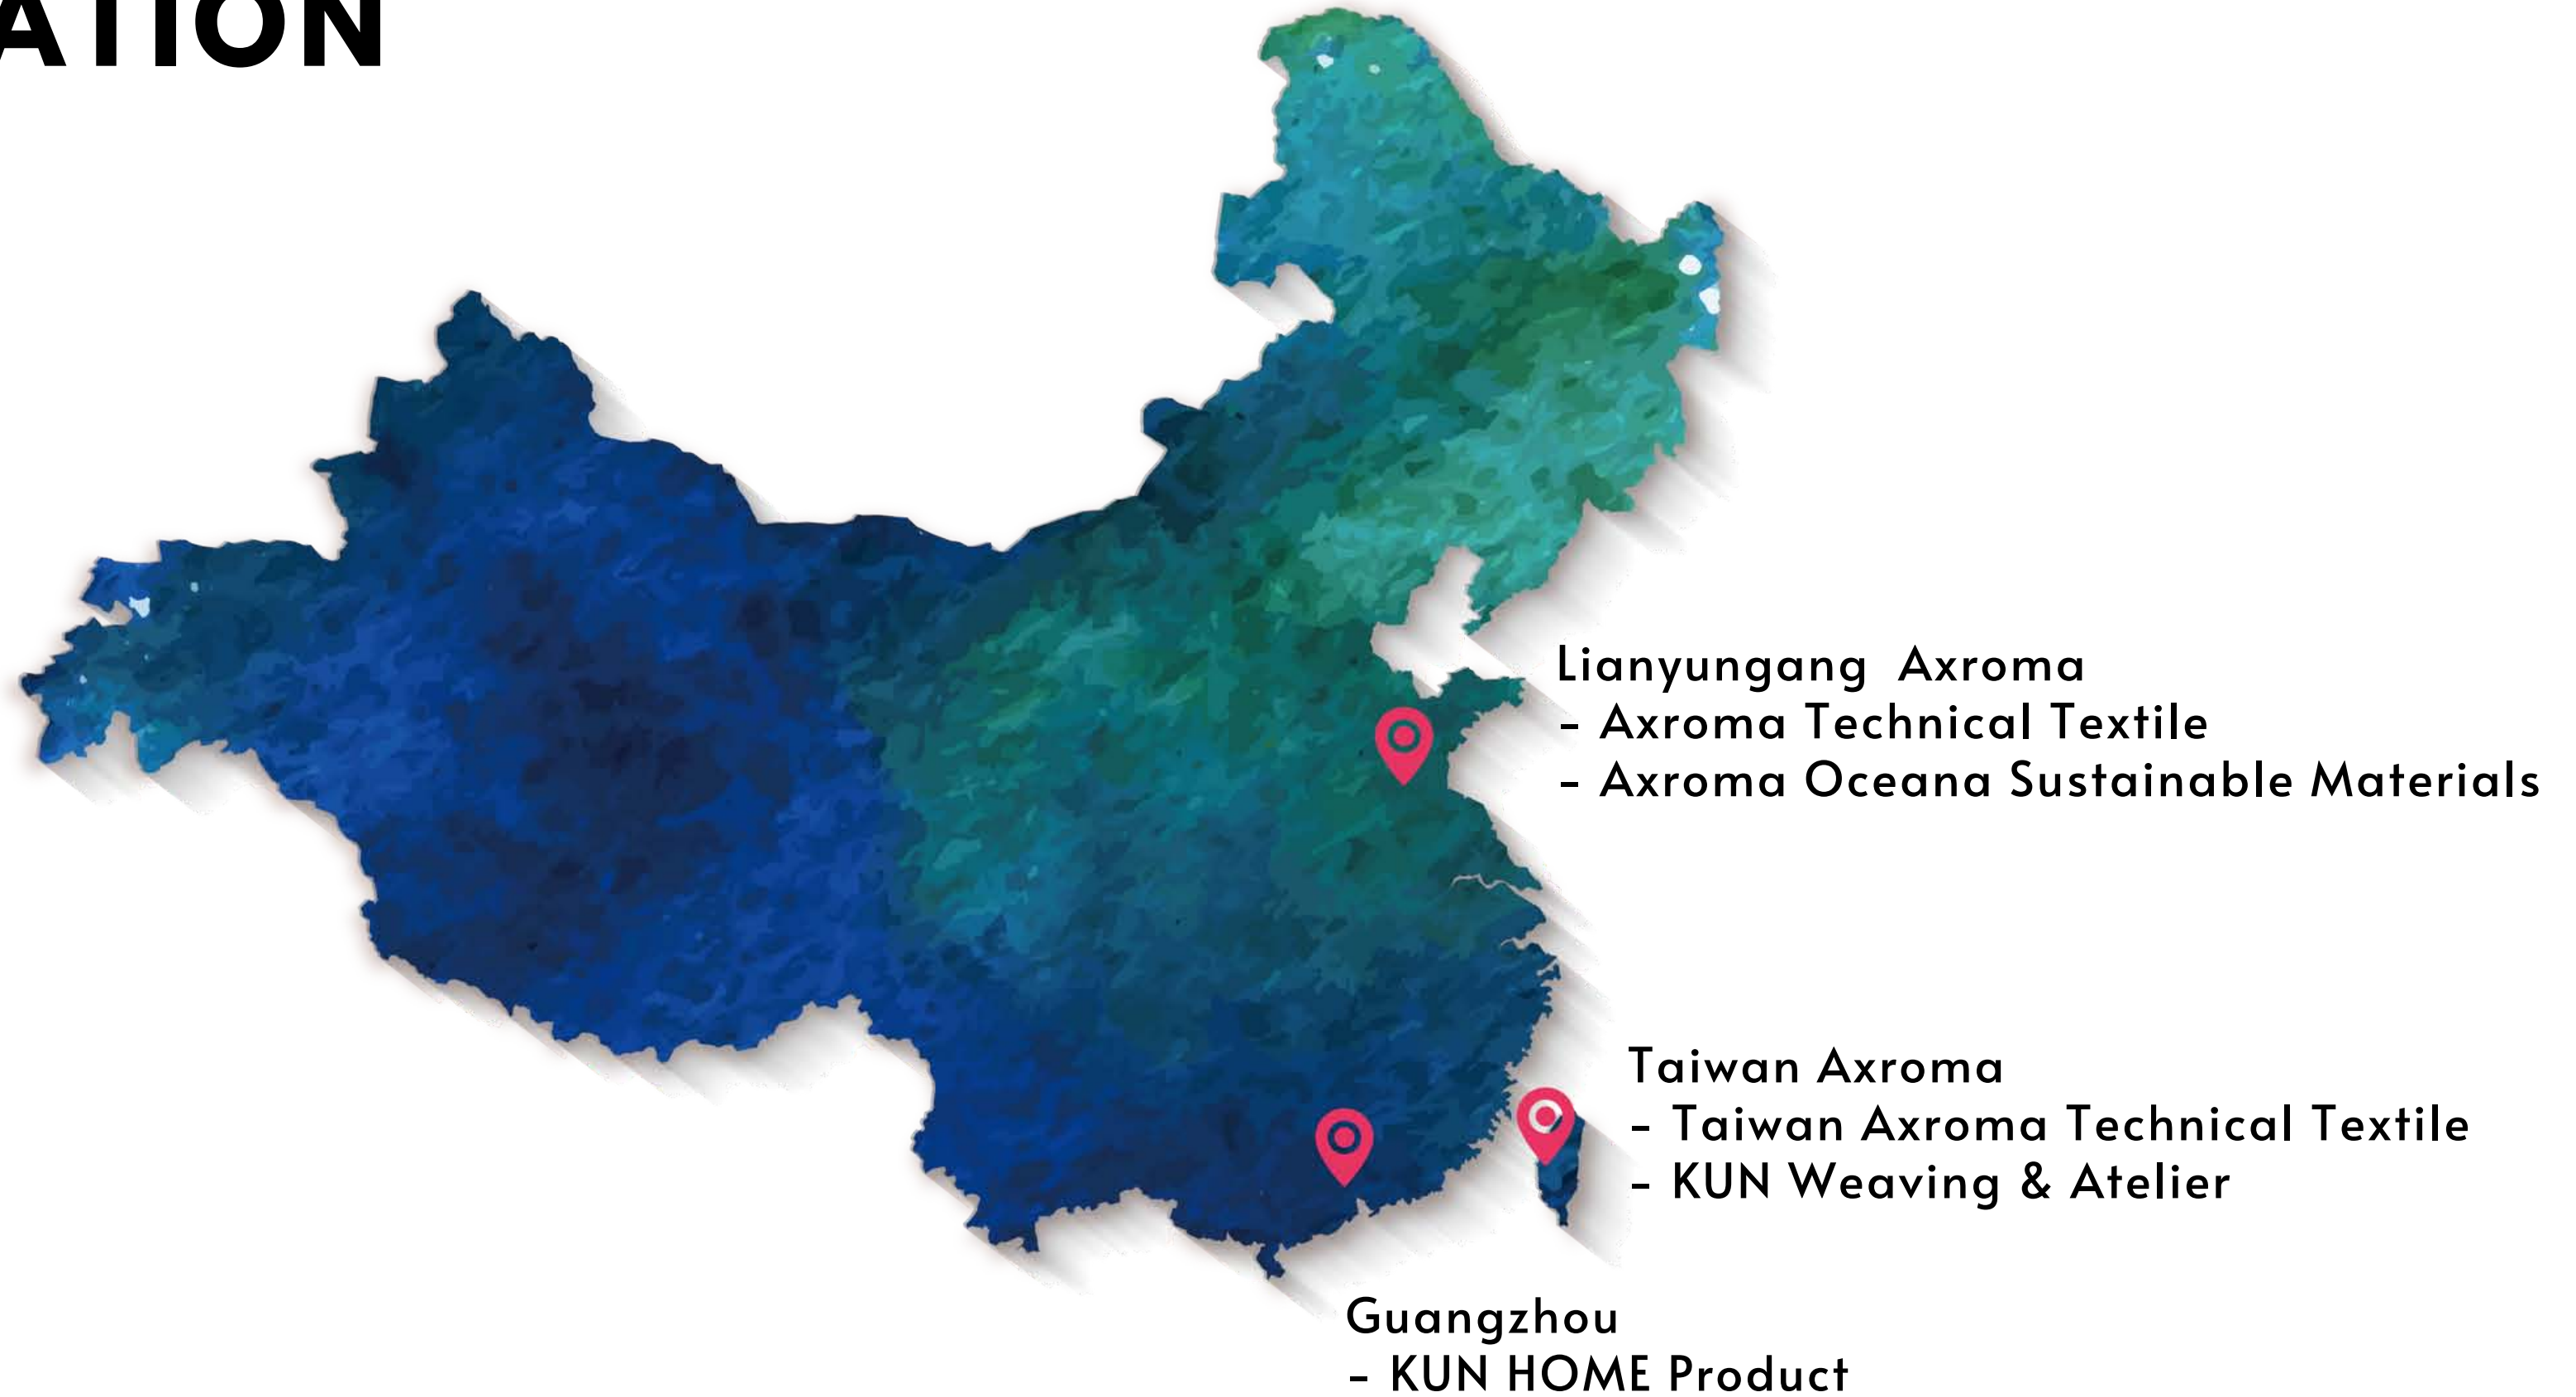

Lianyungang Oceana Sustainable Materials

- 100% Private Owned
- Recycled fish net, sort, clean, filter and granulate

Guangzhou Kun Home Product

- 100% Private Owned
- Readymade, Warehousing & Distribution
- Monthly Capacity: 1.5M pcs

GEOGRAPHIC LOCATION

PROUD TEAMWORK

AXROMA TAIWAN

Color Development

- Rich archive & color library
- Spectrophotometer Reading
- High UV recipe expertise

Product Design & Development

- 5 automatic hand looms to develop Dobby
- Blanket warps to develop Jacquard
- Graphic design to engineer & pattern

Internal Lab & Testing

- Colorfastness to UV & to Weathering test
- Abrasion, Pilling. Seam Slippage
- DWR, crocking, water resistance

Dye & Finishing

- Innovative & recycled PET Solids
- PFC free finishing
- GRS & OC certified

Jacquard Weaving

- New plant construction completed in 2019
- Warping installation in 2021
- GRS & OC certified

Quality Control

- In house packaging & inspection
- 20 points rule as general guidance

VERTICAL OPERATION

AXROMA CHINA

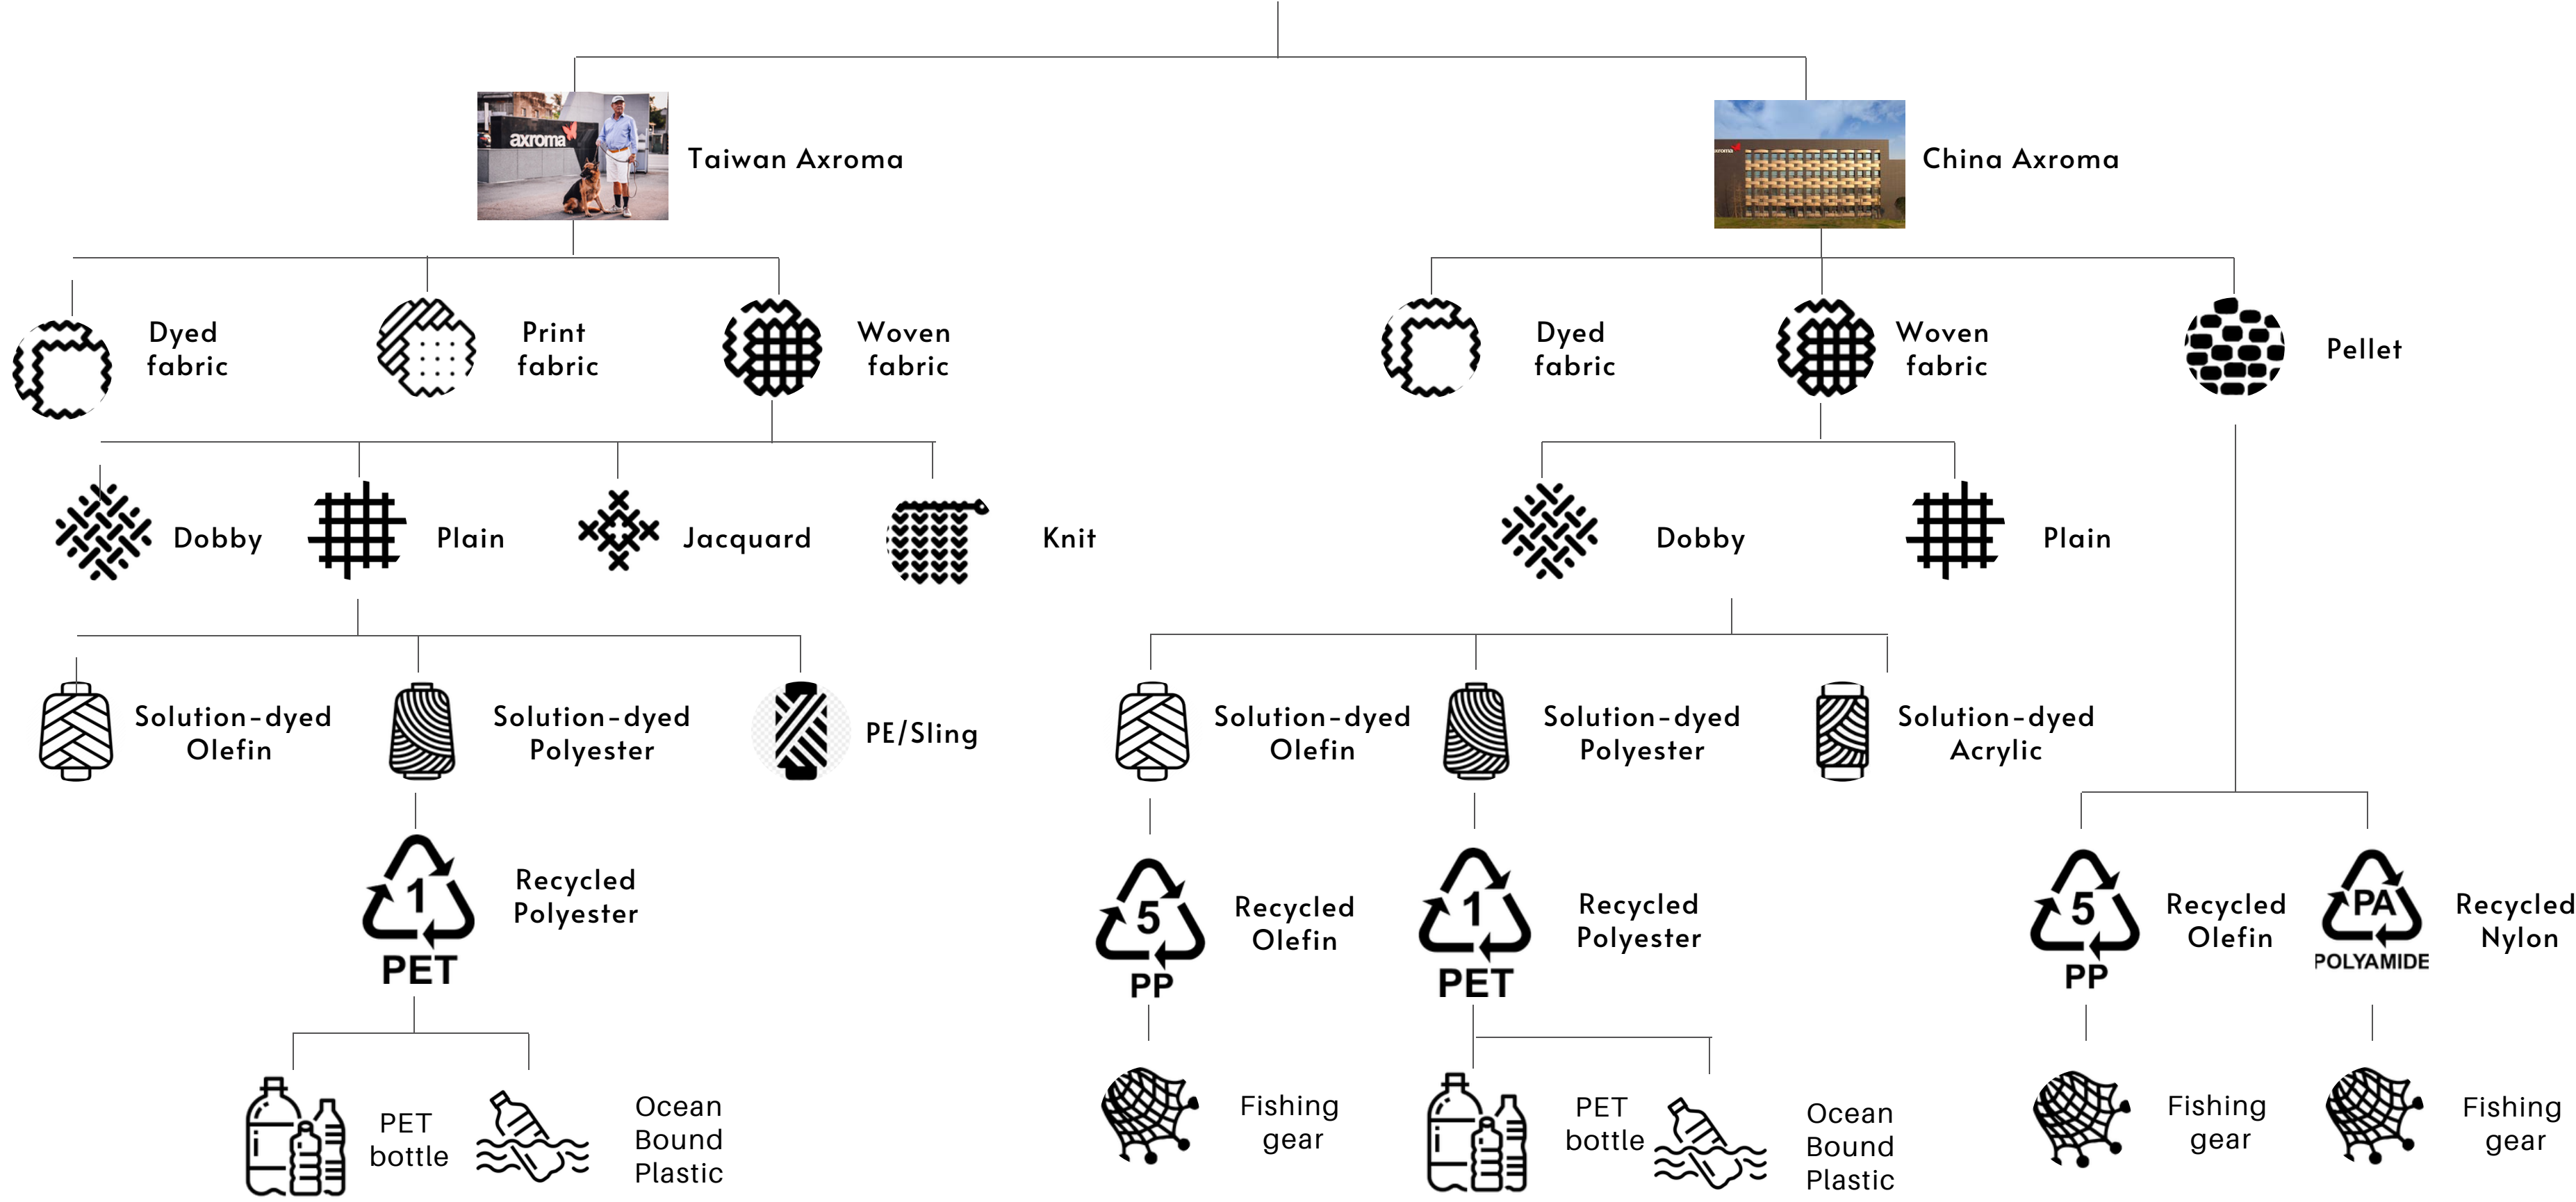

- Operation started in 2006
- New construction built in 2013, 230,000 square feet for vertical operation
- Fully environmental & recycling
- RMB to door, FOB USD, ECFA trading
- GRS, OEKO-Tex 100 certified

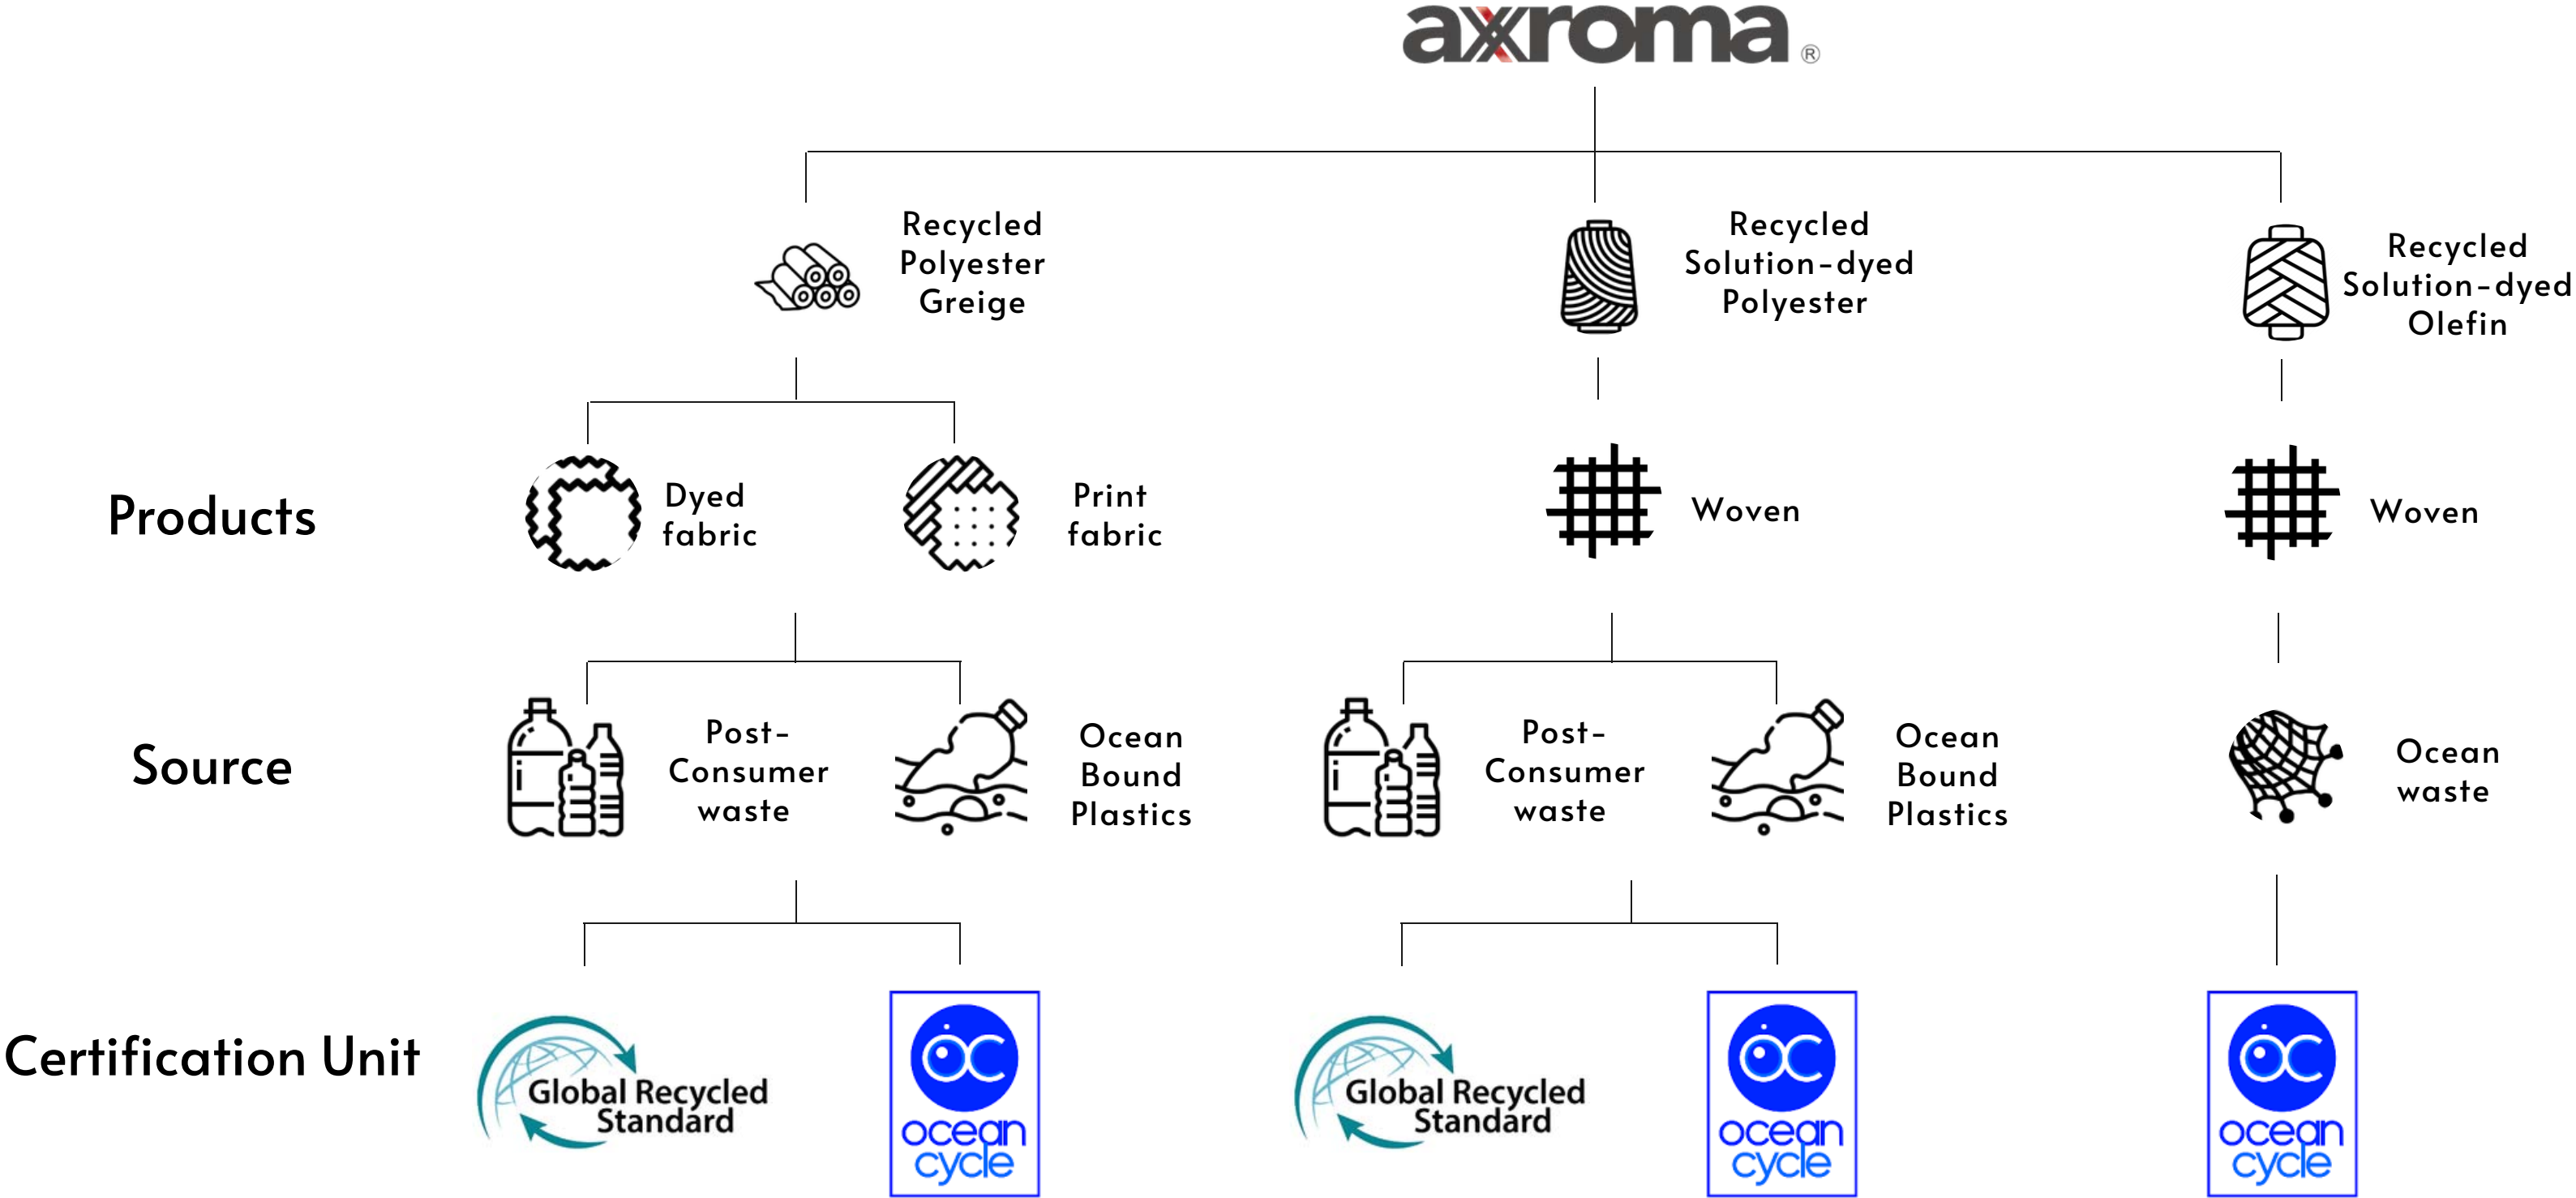

READY MADE PILLOW & CUSHION

- Domestic fabric retail & trading
- ECFA importing
- Warehousing & distribution
- Readymade pillows & cushions

Outdoor Mackintosh® Air Satin

- Finely crafted with extremely fine Mackintosh® Olefin yarn in satin twill to maximize water column to 450mm that resist water without additional coating and membrane. PFC free genuine water repellency is inherit the yarn for permeant effect along with longevity colorfastness.
- A simple form of a powerful performance Olefin fabric powered by minimum energy and water-saving process.
- Mono component, ideally to be easily recycled.

Outdoor Mackintosh® Air Ripstop

Mackintosh® Inside Technology is developed to enable Olefin yarn to be imbed with PFC free DWR during spin-dyed yarn extrusion that supports a genuine superior water repellent performance even after laundry or rain shower. Crafted with extremely fine Mackintosh® Olefin yarn in Ripstop and laminated with solvent free, GRS compliant recycled TPEE membrane to surpass over 10,000mm water column, offering superb waterproofing, breathability, and permeability that supports the diverse applications for functional & professional wear and other industrial fields.

Thank you!
