# RECYCLED BOTTLES.

# Reborn.

Post-consumer bottles are collected.

Bottles washed and chopped into flake.

Bottle flake melted and formed into chip.

Chip melted and made into yarn.

## TRANSPARENT

U Trust™ verification provides a higher level of transparency.

## TRACEABLE

FiberPrint™ technology analyzes the fabric content and composition.

## CERTIFIED

Recycled content certified by third party.

## SUSTAINABLE

Achieving sustainability through recycling.

# MULTIFLEX

## × REPREVE®

Shorten the time course, reduce the energy consumption, keep the function.

	Stretch potential	UV protection	Recyclable	Microplastic	Manufacturing process
