Global Locations & Organization

Flexible Solutions for the Global Supply Chain

For the different region of markets, New Wide Group's global presence leverages the advantages of vertical supply chain, quick response, preferential tariffs and local services to provide customized services from design, knitting and dyeing and garments.

About NEW WIDE GROUP

New Wide Enterprises Co. Ltd., the parent company of New Wide Group, was established in 1975 in Taiwan and expanded in Mainland China. Through more than 40 years of effort, we have grown into a global enterprise of four business groups - Knitting Trade, Knitting and Dyeing Supply Chain, Garment & Trade, and Strategic Alliance.

Our global intelligent knitting supply chain, from the functions of marketing trends, R&D, knitting, dyeing, to garment manufacturing, enables us to be more resilient, agile in rapidly changing markets. In Taipei and Changzhou, there is 「D³ LAB」 for R&D that integrates Data, Design and Development. The supply chain is worldwide and the knitting, dyeing mills are located in Taiwan, China and Vietnam. We can provide eco-friendly and energy-saving dyeing services. Besides, the garment factories in Cambodia, Vietnam, Lesotho, and Kenya, and branch offices in Shanghai and the U.S. to provide 「one-stop」 service to clients.

For next generations, New Wide is committed to advancing textiles for a sustainable world through greener, intelligent manufacturing. We work closely with supplier partners as a pioneer on developing innovative green textiles and digital transformation. Aligned with brand clients, we strive to develop a low-carbon circular supply chain in the apparel industry.
