PLAID-OLGY 101

3=1

3 DIFFERENT LOOKS, 1 FABRIC.

Our piece-dyed technology gives you endless color options

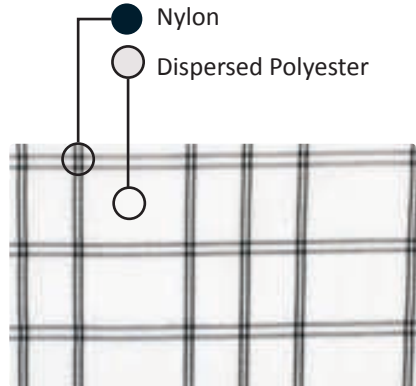

Each 3 color plaid features 3 fibers:

nylon	Darkest Shade
cationic polyester	Medium Shade
dispersed polyester	Lightest Shade (Ground Color)

Choose to dye just one, two, or all three for completely different looks.

LOOK 1

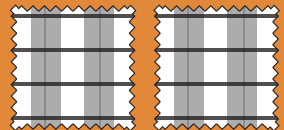

2 Color Content Example

Placing Your Order Is Simple

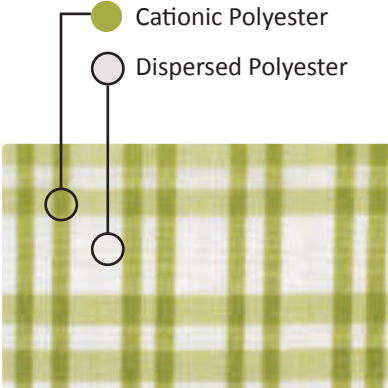

1 Choose one of our existing plaid patterns or submit your own electronic plaid design and Pantone colors

2 Lab dips for first look (10 days lead time)

(20-30 days lead time)

Bulk Greige Order:

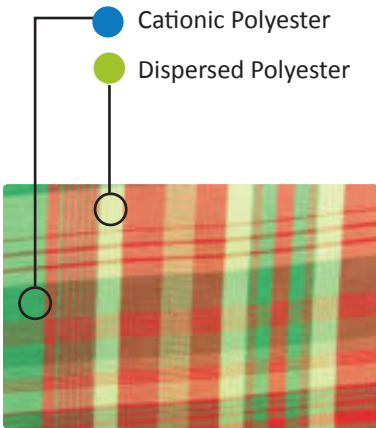

Contact your sales representative for MOQ

4 Lead time for bulk including greige, dyeing, and finishing

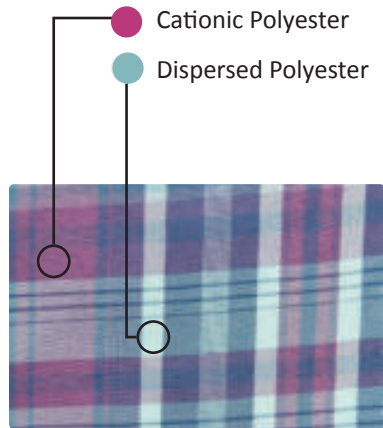

PLAID-OLOGY 101

WHAT NOT TO DO

Learn from our mistakes. Here are some examples of piece-dyed plaids that didn't go so well.

The **Dispersed Polyester Ground** (Lime Green) stained the **Cationic Polyester** (Blue Aster), resulting in a green cast, this is not repeatable.

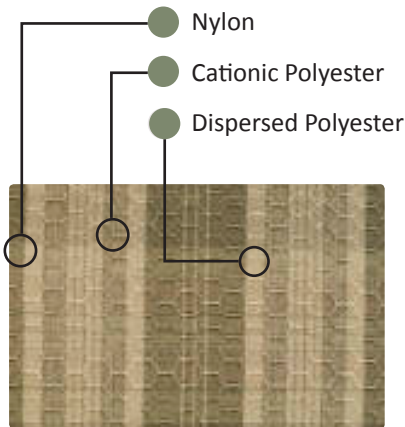

The **Dispersed Polyester Ground** (Aqua Haze) stained the **Cationic Polyester** (Very Berry), resulting in a purple cast, this is not repeatable.

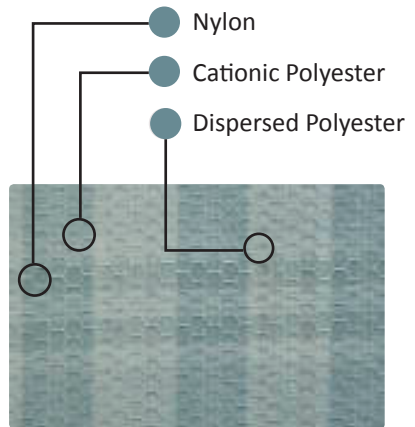

nylon	Darkest Shade
cationic polyester	Medium Shade
dispersed polyester	Lightest Shade (Ground Color)

nylon	Oil Green
cationic	Oil Green
dispersed	Oil Green

nylon	Smoke Blue
cationic	Smoke Blue
dispersed	Smoke Blue

One can not dye all fiber components with the same Pantone color because each fiber absorbs dye differently.

Dyeing all 3 fiber components with the same Pantone color creates colorfastness and staining issues.

The shade cannot be controlled and is not repeatable in production.

PERFORMANCE APPAREL

Performance for your way of life.

Enthusiast

Geared for the outdoor adventurer.

These fabrics are for the outdoor adventurer who expects the ultimate high-performance garment, requiring the fabric to perform multiple functions.

Matrix several fabric finish technologies for a multi-matrixed, performance-packed finish.

Lifestyle

Easy-care performance for the frequent traveler.

Focused on versatility, products in this category are easy-care, and high-style, with performance wool looks, bottoms, and dress shirts.

Matrix fabric finish technologies in this product line for a dual-purpose, 2-in-1, high performance fabric.

Essentials

Quality performance for everyday.

The Essentials product line is our baseline performance offering for apparel; synthetic fabrics that have been favored over the years for delivering value and quality.

This casual collection features our core quick-dry technologies.

 **Insect Repellency**

Odorless, durable, fabric applied contact insect repellent effective against multiple species of crawling and flying insects. Epa-registered and military tested.

 **Antimicrobial**

Antimicrobial technology that kills or slows the growth of odor producing and stain causing microorganisms. This includes bacteria and fungi such as mold and mildew.

 **Moisture Control System**[®]

Our quick-dry system that offers the most advanced cooling by moisture activation.

Our quick-dry system that transports moisture depending on environmental conditions to cool you off or keep you warm.

Our quick-dry system plus excellent sun protection, up to 40+ UPF.

Our quick-dry system that allows most ground in stains to be easily removed and preventing soil from re-depositing.

Our original quick-dry, Moisture Control System[®] that moves moisture away from the bod, offering optimal comfort and moisture management.

What can our
fabric do for you?
