- Nature Fiber Blended
- Yarn Dyed

# Global Operation

<b>Circular Knit</b> <b>500set</b> <ul style="list-style-type: none"> <li>• Single Jersey</li> <li>• Double Knit</li> <li>• Computer Jacquard</li> </ul>	<b>Warp Knit</b> <b>200set</b> <ul style="list-style-type: none"> <li>• Raschel (Jacquard 28g)</li> <li>• Tricot (28 to 36gg)</li> <li>• Warp Knit Seamless</li> </ul>
-------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------

## Knitting

## Dyeing

<b>Yarn Dyed</b> <b>20set</b> <ul style="list-style-type: none"> <li>• ATY nylon and polyester</li> <li>• staple yarn</li> </ul>	<b>Piece Dyed</b> <b>300set</b> <ul style="list-style-type: none"> <li>• NOP, TOP and Woven</li> <li>• stretch woven</li> <li>• Lightweight fabric</li> </ul>
-------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------

## The Lab.

- 3D Fabric scanning
- 3D Garment fitting
- Wear test sampling
- Digital library

## Finishing

- Printing
- Peaching
- Brushing
- Embossing
- Foiling
- Spray / Tie Dye

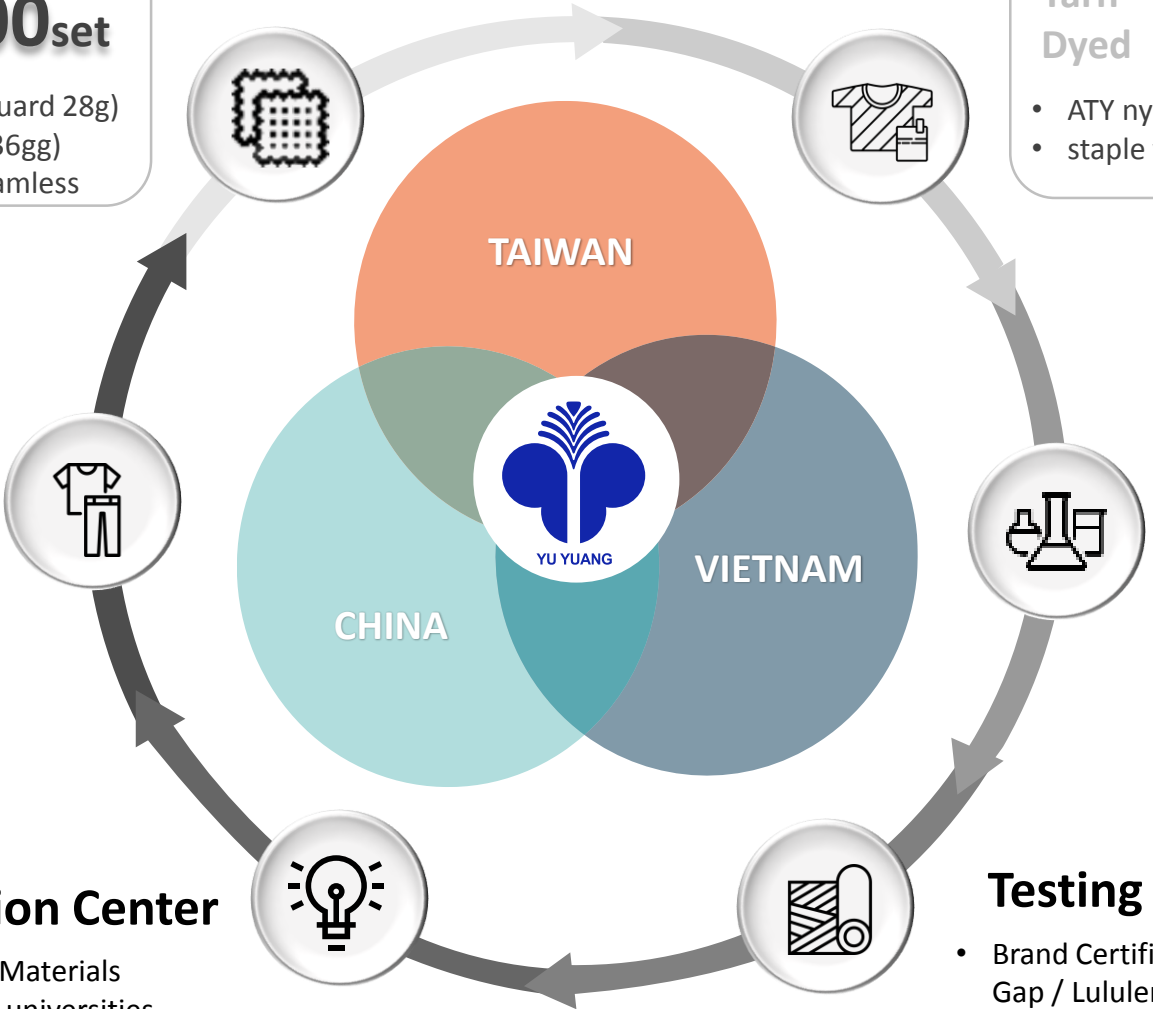

## Innovation Center

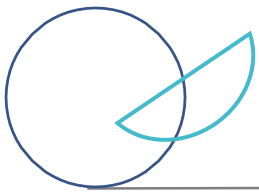

- Advanced Materials
- Work with universities
- Green Technology

## Testing Center

- Brand Certified lab setup - Adidas / Gap / Lululemon / VF
- Brand Certified colorest - Adidas / Gap / Lululemon / VF

# Capacity Plan

2025 **1300** ton/m

2024 **1300** ton/m

2023 **1300** ton/m

# Now & Next

## Marketing

# 1

- Trend analyze
- Seek new pattern and technology
- 3D Fabric scanning
- 3D Garment fitting
- Wear test sampling

**NEXT**

- Trend
- Color
- Digital Library

## Management

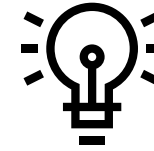

# 2

- Track all the developments
- Combine all the data and marketing
- Data sharing to COO
- Quality Control

**NEXT**

- Program
- Process
- Direction

## R&D

# 3

- Advanced Materials
- Green Technology

### Yarn Technology

- Customized yarn

### Knitting

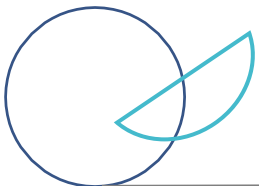

- Design new structure

### Dyeing

- Achieve best efficiency

**NEXT**

- Yarn
- Fabric
- Technology

# SUSTAINABILITY

# SUSTAINABILITY

## Carbon footprint

- **ISO14064-1**  
(Greenhouse gases emission verification)  
(Restart in 2022)
- **ISO14067**  
(Product Footprint verification)  
(Restart in 2022)

## Green Products

- **Oeko-Tex100**  
(The Green Products Test Reporting)  
(Since 2001)
- **Cradle to Cradle**  
(Certification in 2014)
- **bluesign**  
(Chemicals Management)  
(Since 2015)
- **GRS**  
(Material Recycle Management System)  
(Since 2015)

## Green Factory

- **ISO14001**  
(Environmental Management System)  
(Since 2002)
- **ISO45001**  
(Health & Safety Management System)  
(Since 2017)
- **ISO50001**  
(Energy Management System)  
(Since 2017)

## Quality

- **ISO9001**  
(Quality Management System)  
(Since 1999)

# THANK YOU

be committed, be responsible, be sustainable.
