IDEAL
EARTH
SUSTAINABLE ZIPPERS

ZIPPERS THAT TREAD LIGHTLY ON THE PLANET

IDEAL Earth™ zippers are made using recycled polyester, utilizing special processes that convert recycled water bottles into zippers. Here's how it's done...

recycled bottles
are collected and flaked

bottle flakes are formed into **polyester chips**

polyester chips are extruded into **recycled polyester yarn or monofilament**

recycled polyester is used to create environmentally responsible **zippers**

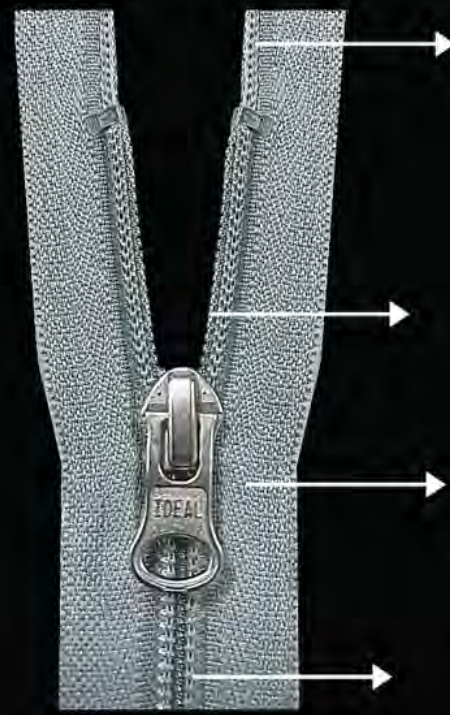

Available
For SS22
