

WHAT WE  
PROVIDE?

IDA

&

P&E positions as functional X fashion provider, providing functional fabrics ranging from mountain, outdoor, urban, athleisure, sport, surfing to workwear while fashion is not sacrificed.

## FUNCTION X FASHION

P&E將自己定位為「功能X時尚」供應商，提供不論從山地、戶外、城市、運動休閒、運動、衝浪到工作服等各種功能性面料且兼具時尚設計。

P&E紡織有限公司於2004年在中國蘇州成立，並於2016年在台灣設立辦事處，旨在成為使面料完美的專家。我們擁有200台寬幅織機，聘請專業的工廠經理負責生產；因此，質量易於控制、價格合理、交貨時間具有競爭力。此外，我們還有數碼印花工作室，配有四台日本進口的寬幅噴墨打印機-羅蘭機，輸出的品質優良。同時客戶可以使用我們的數碼工作室在短時間內查看他們的設計，從而節省大量的行政來回時間。

P&E Textile Co.,Ltd established in ,Suzhou, China in 2004 and set up our office in Taiwan in 2016, aiming at being an expert to make fabric perfect. We have 200 wide-width weaving machines with professional plant managers running the production; therefore, quality is easily controlled, price is reasonable and lead time is competitive. Besides, we also have digital studio with four wide-format inkjet printers imported from Japan. Exported quality is divine. Clients can instantly review their design with our digital studio which saves administrative time.

P & E是環境保護的縮寫。我們公司的核心理念是「沒有綠色，沒有面料」。由於紡織產業是世界上污染最嚴重的產業之一，我們努力通過使用回收和再循環方式，同時使用生質材料和可降解紗線製成品，企圖地減少在生產過程中的廢物。

P&E are abbreviations of protection the environment. The core concept of our company is “No green, no fabric”. As textile industry is one of the most polluted industries in the world, we strive to minimize wastes created during the process by using upcycled and recycled means while at the same time using bio-material and degradable yarns to make finished products.

P&E Textile Co.,Ltd is an expert to functional woven fabric, especially in surfing boardshort, outdoor softshell, snow/ski wear, work wear and other athleisure clothing. With lots of experiences in EU and the U.S market, we have plenty of know-how for new trends. Our clients range from EU, the U.S, Australia, New Zealand, Taiwan and other Southeast Asian countries.

P&E紡織有限公司是功能性平織面料的專家，特別是衝浪短褲、戶外軟殼面料、滑雪服、工作服和其他運動休閒服。憑藉在歐盟和美國市場的豐富經驗，我們擁有對於新趨勢的即時掌握以及豐富的技能。我們的客戶主要遍及歐洲、美國、澳洲、紐西蘭、台灣和其他東南亞國家。

# 環保聚酯纖維面料

PRODUCT

我們使用來自國際公司Unifi的環保聚酯紗。由於我們有很多製造再生聚酯織物的經驗，因此擁有控制質量的專有技術，這是目前市面上製作RPET面料最棘手的問題。此外，我們的RPET產品在價格方面具有其競爭力，主要是因為我們與Unifi簽訂了合約，以及大量訂單對原材料供應商的議價能力高。環保聚酯廣泛應用於從短褲到雪地的各種各樣的產品；從山區到城市；從四面彈到複合面料。重要的是，質量的穩定性和準時交貨時間是我們引以為豪的。

Raw material is from Unifi, an international firm. As we have lots of experiences making recycled polyester fabric, we have know-how to control the quality which is the most serious issue nowadays on making RPET fabric. In addition, our RPET products are competitive in terms of price as we have contract with Unifi. And huge amount of orders leads to high bargaining power toward raw material supplier. Recycled polyester is widely used ranging from boardshort to snow wear; from mountain to urban; from 4-way stretch to bonded fabrics. Importantly, stability of quality and punctual lead time are what we are proud of.

# RECYCLE POLYESTER

日前P&E製作環保尼龍面料的技術越來越純熟，常用於戶外，都市等服裝面料。

# RECYCLE NYLON

環保尼龍面料

Nowadays, our product of recycle nylon is more and more stable. Recycle nylon is commonly applied on outdoor, urban, shirting, overshirt clothing...etc.

# MECHANICAL

機械彈力織物具有全面的穩定性，在不使用彈性纖維的情況下，仍可以非常快速地恢復其原始形狀，並且具有柔軟和絲綢手感。

系列中有T8以及T400系列。由於T8和T400具有柔軟性和良好彈性，因此適用於各種戶外穿著，舒適性強。此外，我們有T8以及T400的棉感系列產品，此系列具有如棉花般的觸感，如棉般的舒適以及良好的彈性。

## PRODUCT

### 機械 彈力織物

This mechanical stretch fabric has good dimensional stability, recovers to its original shape very quickly, and has soft and silky hand feel without using stretch fibers.

T8 and T400 belong to Mechanical series. As T8 and T400 have characteristics of softness and good flexibility, they are suitable for all kinds of outdoor wear with comfortability. Besides, we have special collections of T8/T400, which are cotton-hand feel collections. This collection has great hand feel ,excellent flexibility and extreme comfortability.

## 彈性纖維系列

PRODUCT

我們的主要產品之一是彈性纖維系列，適用於不管是短褲或是複合面料。藉由我們寬機的織布機以及對於染色，後整理的技術，我們製作的彈力面料比其他家更具彈力且有競爭力。
